

## Sample Ballot for April 7, 2020

### General Municipal Election

There are 24 ballot types for this election! The county has five incorporated cities, and among those five, there are 17 wards. Each ward has its own ballot type for the election of the city council member or aldermanic position specific for that ward. This accounts for 17 of the 24 types.

The remaining 7 ballot types are for voters who are within one of our 7 school districts, yet not living within any of our five cities. That brings the total to 24 ( $17 + 7 = 24$ ).

So, if you are in a city, see the list below:
